HARD MICRO-TELEPHONE SETS.

GENTLEMEN,

I write to request you to quote your best price and earliest time of delivery for the following materials, conforming to the specifications given below:—

500—Desk type Hand-Micro Telephone sets in casing of black moulded material with ringing bell incorporated in the casing suitable for centre battery working and provided with a number Dial Switch suitable for automatic telephone traffic and conforming to the British Standard Specification.

These instruments are intended to ork won the Bangalore and Mysore-Automatic Telephone Exchange equipments supplied by Messrs. Siemens Brothers, London. The Bangalore Automatic Telephone Exchange is equipped with No 51 Equipment and the Mysore Automatic Telehpone Exchange with No. 16 equipment. The instrument shall be specially designed to meet the requirements in tropical countries.

The transmitter shall be of the inset type of the latest design and the receiver shall have a transmission efficiency much superior to the normal commercial bell receiver.

The electrodes shall be wholly immersed in the granules to ensure permanent contact and uniform pressure.

The moving parts shall have the least effective mass and the instruments shall not fry or howl or break circuit. The transmission efficiency and resistance of the set shall remain steady irrespective of the manner in which the instruments are held. The transmission efficiency shall not be less than that specified in the British Post Office standards.

The instruments shall be so designed that the side tone is fully controlled. Full description of the method adopted to overcome the side tone must be furnished by the tenderer and all literature relating to this must be furnished along with the tender.
